

Capabilities Statement

About SecurityScorecard

SecurityScorecard is the global leader in cybersecurity ratings and the only service with millions of organizations continuously rated. Thousands of organizations leverage our patented rating technology for self-monitoring, third-party risk management, oversight and cyber insurance underwriting. Through a customer-centric, solution-based commitment to our partners, we are transforming the digital landscape building a path.

Core Competencies

Continuously monitor the security posture of your agency, contractors, and regulated entities. Speed up auditing and vulnerability analysis capabilities to protect critical systems with a collaborative and risk-based approach to regulatory oversight.

- Oversight
- Self-Monitoring
- Compliance
- Third-Party, Supply Chain, and Regulatory Risk
- Stakeholder Reporting

Contracts via Carahsoft

- NCPA
- NJSBA
- E&I Cooperative Services
- The Quilt
- Army ITES-3S

Featured Customers

- New York Department of Financial Services
- United States Department of Defense
- Los Angeles Department of Water & Power

Cybersecurity and Infrastructure Security Agency

The emergence of security ratings has increased the use of cyber risk quantification to calculate and measure cyber risk exposure. These security ratings provide a starting point for companies' cybersecurity capabilities and help elevate cyber risk to the level of board decision-making.

- Bob Kolasky
