SecurityScorecard

aws marketplace

Gain a holistic view of any organization's cyber risk with SecurityScorecard

Breach Probability

- A: 1 X
- B: 2.6 X
- C: 4.3 X
- D: 6 X
- F: 7.7 X

7.7 X more likely to be breached
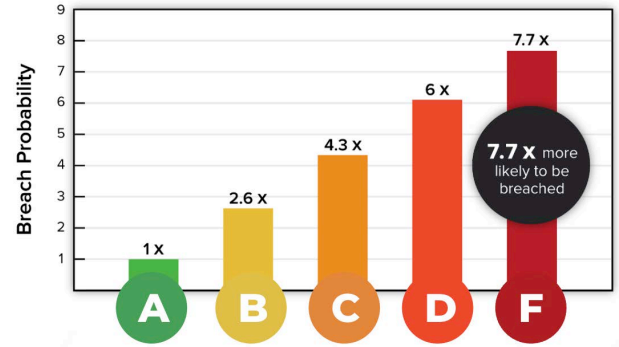

12+ million companies rated by SecurityScorecard, powered by AWS

SecurityScorecard has the largest number of continuously rated companies. The industry's most expansive data set provides in-depth insights to make faster, smarter business decisions. Mitigate breach risk and gain actionable details for every issue surfaced.

Benefits of AWS Marketplace

Extensive selection
Choose from over 7,000 software listings, from over 1,500 software sellers.

Simplified billing
Receive a consolidated bill of all charges from AWS Marketplace.

Flexible terms and lower costs
Pick between both flexible consumptionbased pricing as well as contract models that best fit your needs

Easy license management
Manage licenses in a portfolio view for all AWS environments and quickly expand and renew licenses.

Minimized procurement friction
Reduce procurement cycles for AWS customers when AWS is already a procurement-approved vendor

Faster deployment
Get the software and you need in minutes with just a few clicks.

About SecurityScorecard

SecurityScorecard is the leading security ratings platform that enables you to instantly rate, understand, and continuously monitor the cybersecurity risk of any company, non-intrusively. We automatically map ratings to cybersecurity questionnaire responses, providing a 360-degree view of risk. SecurityScorecard is one solution that supports many use cases including: enterprise cyber risk management (self-monitoring), executive-level reporting, third-party risk management and cyber due diligence.

Why buy SecurityScorecard on AWS Marketplace?

AWS Marketplace simplifies software licensing and procurement with consolidated billing. Features like 1-click deployment, and flexible pricing options help you unlock the best price. A growing number of AWS Marketplace customers, across virtually every industry and geography, are using AWS Marketplace as a way to find and quickly deploy a wide variety of third-party software solutions to speed up their migration to the cloud.

AWS Marketplace features include:

- Customized offers: Customize terms, pricing, and payment schedules with Marketplace Private O ers.

- Faster deployments: Set up controlled environments in minutes or hours, instead of weeks or months.

- Reduced costs: Pay for software on an hourly, monthly, or annual basis, and stop over purchasing through a perpetuity license.

Deploy SecurityScorecard for free to rate the cybersecurity posture of any organization in minutes

Security Ratings
Gain an outside-in view of your security posture so you can take preventative action. Scoring is based on our trusted, transparent ratings methodology and data collected on millions of organizations.

Atlas Security Assessments
Use automation and machine learning to validate vendor responses and shorten the assessment process by as much as 83%*. SecurityScorecard Atlas complements security ratings for a complete inside-out view of vendor risk.

Visit SecurityScorecard on the AWS Marketplace to start a Free Trial
