

The Total Economic Impact™ Of The SecurityScorecard Platform

Through four customer interviews and data aggregation, Forrester concluded that the SecurityScorecard Platform has the following three-year financial impact.

SUMMARY OF BENEFITS

Three-year risk-adjusted

Avoided security engineer hires for third-party risk management and monitoring

Strengthened third-party and supply chain security

Efficiencies in critical vendor onboarding

SECURITYSCORECARD BY THE NUMBERS

85% time dedicated to third-party risk management and monitoring not including onboarding

75% reduced risk of breaches from external third-party attacks

15 hours time saved onboarding a new critical vendor with SecurityScorecard

VOICE OF THE CUSTOMER

“We’re now identifying the greatest risks in our external infrastructure, the stuff that any hacker with one day of experience can figure out. Honestly, the ability to have all this third-party risk information aggregated and presented in a usable way for both us and the supplier is a game-changer.”

Senior director of information protection, insurance

“SecurityScorecard has been transformative — going beyond being a cyber ratings provider and providing a unique and valuable perspective on third-party risk management.”

Senior manager of cybersecurity, banking
